Click on letter **I**

Scroll down the list to **iMovie HD**, click on it

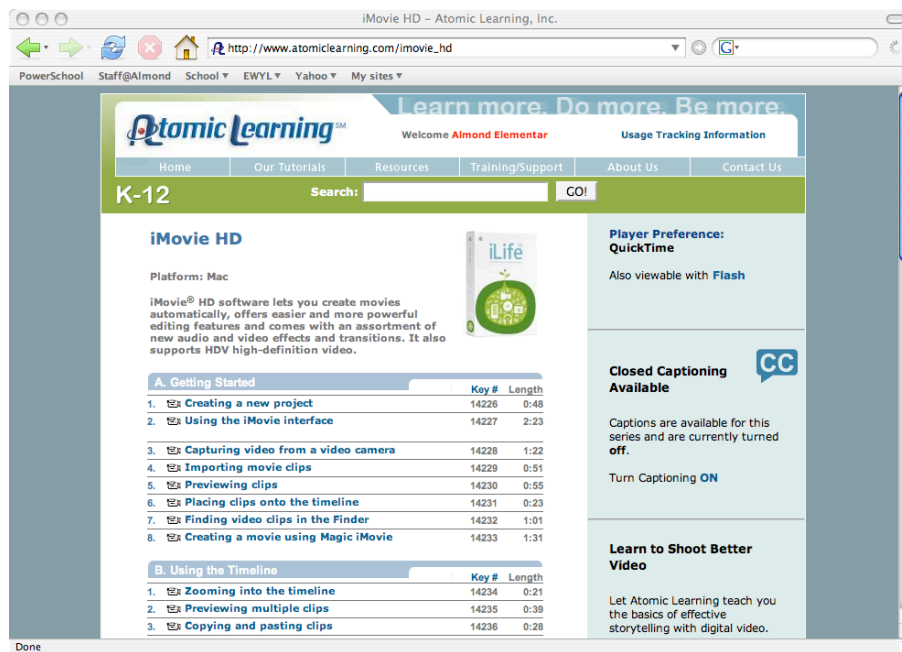

There are several short iMovie lessons in QuickTime movie format. The movies have audio, so be sure you have the volume turned on and maybe some headphones.

The more you watch, the more you learn! It's okay to skip sections C and G, but you'll need to see the rest.

On your own you can browse through the tutorials offered on other software applications.

Share this resource with your family too.

When you're working in iMovie and you encounter a problem or have a question, you can log into Atomic Learning and get a mini lesson on your specific topic. Remember the login and password for easy access.
